Art Unit: 3637

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-11, drawn to a container unit that can be hung, classified in class 312, subclass 245.
- II. Claims 12-20, drawn to a container unit that can be attached to other container units, classified in class 312, subclass 198.

The inventions are distinct, each from the other because of the following reasons:

Inventions group I and group II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention of group I has separate utility such as in a case such as Vasudeva Patent No. 5,803,254 and group II has separate utility such as in a case such as in a holder such as Accamanno et al, Patent No. 4,815,795. The applicant has cited both Patents. See MPEP § 806.05(d). Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to JERRY A ANDERSON whose telephone number is 703 308 2202. The examiner can normally be reached on 9:30 - 6:00.
